

BUSINESS SOFTWARE FOR OMAN

E31 Smart POS System

Retail checkout, inventory, and reporting

A fast cashier and retail management system for barcode selling, product control, stock movement, OMR pricing, VAT, customers, suppliers, and daily reports.

Core Capabilities

- Barcode checkout and product search
- Inventory, supplier, and customer records
- Receipt workflow with VAT-ready totals
- Local or cloud deployment options

Delivery Notes

- Configured around the client workflow, users, roles, and reports.
- Available with demo, custom quote, and deployment planning.
- Fawtara readiness is technical preparation only and does not claim official certification.
